SUMMARY

Motivated and detail-oriented IT Engineer with hands-on experience in system administration, networking, and ERP support. Looking to grow into a Server Administrator or Cloud Support Engineer role where I can contribute to infrastructure stability, process optimization, and IT service excellence.

SKILLS

Language: Routing, Switching, LAN/WAN, IP Configuration, Network Troubleshooting

Programming Web: Java, Basic PHP, SQL, HTML, CSS

System Administration: Windows Server, Active Directory, User Management, Backup, Restore

Security: Basic Firewall Configuration (FortiGate), End-point Protection

Software: MS Office, Outlook Configuration

Hardware: Laptop/Desktop Setup, Printer, Peripheral Configuration

EXPERIENCE

3/2024 – Present	Technical Executive	CMS IT Services Pvt. Ltd.
	• Provided end-user technical support, ensuring efficient troubleshooting and resolution of hardware, network, and system-related issues. • Administered user accounts, group policies, and permissions through Active Directory to maintain secure access control. • Performed system health monitoring, patch updates, and daily network checks to ensure optimal performance and connectivity across 50+ systems. • Installed, configured, and maintained Windows and Linux systems, ensuring compliance with organizational IT standards. • Managed printer configurations, shared drives, and email client setups (Outlook, Thunderbird) with proper authentication and security policies. • Handled incident and service requests through the ticketing system, maintaining SLA response and resolution timelines. • Supported server-related tasks including domain configuration, file sharing, and system-level troubleshooting in hybrid environments. • Assisted in SQL-based reporting and basic data extraction for production and performance analysis. • Collaborated with IT team members to execute system upgrades, backup procedures, and endpoint security management.	
1/2023 – 6/2023	Data Engineer (PPC Department)	Gemsons Precision Engineering Pvt. Ltd.
	• Maintained Excel-based production data, generating analytical reports to track output and material utilization efficiency. • Provided technical assistance for ERP systems and resolved system-related queries from production teams. • Coordinated with IT support for LAN connectivity, printer setups, and data synchronization across systems. • Ensured data integrity and timely updates in production planning systems to optimize workflow.	
2021 – 2022	Cyber Security and Ethical Hacking (Internship)	Knowledge Solutions India
	• Acquired hands-on experience in network security, vulnerability testing, and penetration testing simulations. • Learned to identify and mitigate vulnerabilities (OWASP Top 10) through controlled ethical hacking environments. • Supported configuration of firewalls, antivirus, and endpoint security to strengthen defense mechanisms. • Developed system hardening checklists and assisted in internal audit documentation for compliance readiness.	

EDUCATION

2018 – 2022	Bachelor of Engineering – Computer Engineering Graduated with a CGPA of 7.92 from Savitribai Phule Pune University.	Pune, Maharashtra
2016 – 2018	Higher Secondary Education (12th Science) Secured 65% in the Higher Secondary Examination from SSGS Inter College.	Jaunpur, Uttar Pradesh
2014 – 2016	Secondary School Education (10th) Achieved 75% in the High School Examination from NPMSP School.	Jaunpur, Uttar Pradesh

CERTIFICATIONS COURSE

KSI-Microsoft	Cyber Security and Ethical Hacking — Microsoft Partner Network Gained practical knowledge of system security, ethical hacking concepts, and network protection techniques.	Knowledge Solutions India
EduBridge	Capgemini Certified Java Program Gained comprehensive understanding of front-end web development using Java technologies, including HTML, CSS, JavaScript, Basic database integration for building dynamic applications.	EduBridge India

EXTRA-CURRICULAR

Paper Publishing	Paper Publishing Of BE final Years Project Published research paper on BE final year project in Recent Innovations in Wireless Network Security, highlighting key findings and comprehensive analysis	HBRP Publication
